

MemeMaker.html

The screenshot shows the MemeMaker web application interface. At the top, there is a navigation bar with the MemeMaster logo, a "Download Chrome Extension" link, and a user login section showing "Welcome back, Username!" and a "Signout" link. Below the navigation bar is a search bar with the placeholder text "Search for something funny..." and a "Keyword" dropdown menu. The main content area is divided into two sections. On the left is a "Toolbar" with three text input fields: "Top text" (containing "Shut up and"), "Bottom text" (containing "Take my money!"), and "Text color" (set to "FFFFFF"). There is also an "Add to picture" button. On the right is a large rectangular area for the meme image. Above this area are two buttons: "Open a meme" and "Upload a meme". Below the image area are two buttons: "Reset image" and "Save to favorites". At the bottom of the page, there are links for "About This Site", "Privacy Policy", and "Team Page".

Have you ever been in a situation and thought to yourself “Shut up and take my money!” or “Condescending Willy Wonka could really express this thought better than I can”? Well, now it's super easy to grab any popular meme picture and add your own thoughts! Just visit our MemeMaker!

Once you're there you can upload a meme from your computer or grab one from your saved favorites. Once you've picked a meme, you can easily add text to the top of your meme, to the bottom of your meme, and even change the text color if you're having issues reading what you wrote. Beyond adding text, you can draw all over the image! Once you're done save it to your favorites for access to your newly created meme whenever you want.

The upload link prompts up a form that allows users to insert a url or drag an image which they would like to upload.
